

Training

Training for the Resin Flooring Industry by the Resin Flooring Association with the experts who understand the specific needs of the industry. The FeRFA Specialist Applicator Program “SAPs” has been developed specifically for newcomers to the industry who want to learn the relevant skills and gain the recognised NVQ level 2 qualification. FeRFA delivers three programmes, Insitu Resin Flooring, Insitu Flooring Screeds and Prepare and Profile Substrates. Delivered over 18 months trainees will explore the full range of skills and knowledge through classroom and practical tuition, followed by an assessment process which will lead to a CSCS Blue Skills Card.

For those wanting to develop career opportunities in the industry FeRFA delivers Occupational Managers NVQ level 3, Contract Managers NVQ level 6, Site Supervisor Safety Training (SSSTS) and Site Manager Safety Training (SMSTS).

FeRFA have developed a range of upskilling and refresher training opportunities to improve knowledge, keep up to date with the latest innovations and develop new skills which are open to FeRFA members and the public.

Topics

- Work Practice and Project Planning
- Selecting the correct Resin system for your project
- Surface Preparation
- Flowable Screeds
- Polishing Decorative Resin systems

Organisations or individuals who are CITB levy registered can claim grant funding for training.
