TRAINING QUARTER

- **Our training solutions are all managed by three experienced professionals who come from the construction industry – we understand the need for training and the requirement to be flexible to accommodate each client's requirements.**
- **All of our on-line courses can be completed on multiple means of technology including mobile phones.**
- **This provides greater flexibility for operatives out on site cutting down on loss of productivity.**
- **All our rates are market tested.**
- **We look after your training requirements by providing and maintaining a training matrix per company and sending out reminders 3 months before they expire.**
- **Rather than having to go through multiple training providers all training (online or in person) can be provided by The Training Quarter. We have worked with FeRFA to understand the level of training required within the association whether it be on-line or in person.**
